Learning and living as children of God

(Ephesians 5:1) (You are God's children whom he loves. Try to be like God)

Monday 8th March 2021

Dear Parents and Carers (including Little Deers),

Update

It was lovely to see everyone back in school today, although I know children of Little Deers haven't really been away! Thank you for all the support you have given to Home Learning during the last few weeks.

There will be a newsletter Friday with a few updates for diaries, all being well, we can look forward to some of our regular summer 2 term opportunities this year.

In the meantime, please remember that we all need to continue to follow government advice about washing hands, wearing masks and keeping our distance. Thank you for continuing to wear a mask when coming onto school grounds.

Just a reminder also that meeting in groups down at the park will put the pupils and staff in school at greater risk of transmission of COVID -19. It also remains against government guidance. Please don't be tempted. I also know it is tempting to stand and chat outside school, please do not. It won't be long before all the measures we have put in place together will be rewarded.

I did send out an email last week with details of the LFD should you wish to have them for your families. These are the details that you will need if you are going to be doing the tests:

Collect test kits

You can collect 2 packs of home test kits at a local collection point. Each pack contains 7 tests.

Anyone 18 or over can collect. You can check online if the location is busy before you go.

[Find your nearest home test kit collection point.](#)

Order home test kits online

If you cannot get tested at your workplace, or are unable to go to a test site or collect test kits, you can order a home test kit online.

Do not order online if you can get a test through other methods. This frees up home delivery for those who need it most.

[Order rapid lateral flow home test kits](#)

School will only need to be informed that you are doing these tests if one is positive and you have to organise a PCR test.

Warmest wishes

JA Neveu
