Learning and living as children of God

(Ephesians 5:1)(You are God's children whom he loves. Try to be like God)

Deerhurst and Apperley C of E Primary School

Home School Visits Policy

Reviewed Nov 2018 Review Nov 2021

Deerhurst and Apperley Church of England Home Visits Policy

AIMS

- To set out guidance to staff making official visits to the homes of pupils on school roll
- To ensure the personal safety of staff on home visits.

EXPECTATIONS

Staff and pupils have a right to work in a safe and healthy environment, free from abuse or threat of harm. Staff are responsible for their own safety and are empowered to make professional judgments appropriate to the circumstances they find themselves in. If they ever feel unsafe or uneasy they should leave a pupil home immediately. Their own safety should come first.

PROCESS

Initial visit

Parents/carers are asked to sign the **school parents/carers home tuition health and safety agreement**. One copy is retained by the parent and one copy by school.

Our expectations of parents/carers regarding the health and safety of school staff in the home is discussed, in-line with the initial home visit record sheet. Key expectations are as follows:

Responsible adult present at all times (usually parent/carer unless agreed otherwise) Smoke-free environment

Quiet workspace

Pets restrained

Appropriate behaviour (by pupils, and other persons in the home, including visitors)

Staff are expected to reinforce the health and safety expectations outlined above and report any issues to the Headteacher. If a member of staff arrives at a pupil's home and no adult is present then they should not enter the home. They should also not enter the home unless pets (particularly dogs) are restrained.

• Teaching in the home (and ongoing visits/meetings in the home):

The purpose of the visits are to provide education for pupils until they are medically able to return to school. The following guidelines must be followed:

A timetable must be kept by staff, detailing all visits/lessons/meetings.	This timetable should show the name of the pupil, the time, duration and location of the appointment. Any
	changes to schedules must be communicated promptly to the Headteacher. Staff are accountable for being at the place where their timetables show them to be. They must be up-to-date and accurate at all times.

Weather conditions and travelling to pupils' homes.	Staff should not travel if it puts them at risk. If (in the event of snow, for example) the conditions seem safe for travel it is important to check with the parent at the location where the lesson is due to take place that conditions there are also acceptable. Staff should also listen to the weather reports on local radio. Staff should always inform the office of where they are and where they are intending to be if their plans change due to weather, or for any other reason.
All staff to wear their ID badges and carry a charged-up mobile phone with them.	Phones should be on silent so as not to disrupt lessons; but staff should have a charged-up, work mobile phone with them in case of emergency or incident. Staff should wear their ID badges at all times.
Staff must ensure an adult is present in the home at all times.	This must be a parent/carer or nominated adult. In the case of a nominated adult, e.g. a grandparent, the parent/carer must notify school of who this will be, and this must be agreed in advance of any lesson. If a staff member arrives and there is no adult present in the home then the lesson will not take place and the member of staff must not enter the house. The staff member should let the office know immediately. If a parent/carer or nominated adult needs or wants to leave the home during a scheduled lesson then the lesson will finish and the member of staff will have to leave. The school office must be informed that this has happened.
Pets should be restrained at all times.	Although staff may be animal lovers, it is important that we maintain a consistent LA approach to pets. All animals (particularly dogs) should be restrained when school staff are in pupil homes. Staff should immediately remind parents of this if it hasn't happened. Flea bites could be a hazard associated with pets. If fleas are suspected in the home then staff members should leave and inform a manager. If there are any other pet-related problems at all, staff should ask school managers to intervene and leave the home if they feel at risk.
Educate in a visible and safe area of the home.	Do NOT teach or meet in a child's bedroom . If a child is confined to bed, the teaching arrangements must be agreed first with a school manager and the parent/carer. Generally this would involve a bed being moved to a downstairs living room with parent/carers nearby or in the same room.
Staff should always be alert to the surroundings in which they are teaching, both in the house and the surrounding area.	When a staff member uses their car, they should try to ensure that it is parked securely and that the route to the house is safe. Within the home, staff should be particularly vigilant of any trip hazards (e.g. trailing cables or toys left on the floor).

Response to risk: if staff notice anything that might pose a risk, or makes them feel uneasy or uncomfortable, they should assess the situation, trust their instincts and leave as soon as possible.	If this happens, the headteacher must be notified as soon as staff have left the home and a meeting will be convened as soon as possible to discuss the situation and agree a plan of action to address the concerns (including possibly changing the location of lessons). Staff should be particularly vigilant of visitors in the home who might pose a threat, or anything else new in the home and not covered by the initial visit (visitor's pets, visitor's children etc).
Pupil Absence	If staff visit a pupil and the pupil has been unavailable on two consecutive occasions, the headteacher should be alerted. Actions will be taken to address attendance.
Make sure someone knows you return home at the end of the working day.	Staff have a responsibility to ensure they are safe and let a colleague, partner, close friend or family member know when they are expected to return home from their teaching commitments at the end of a working day. Staff are encouraged to share the mobile telephone number of their school office with a family member, partner or close friend for reference in case of emergency, or for example a staff member not returning home as expected.

Generic risk assessment

A school generic risk assessment for home working is completed at the time of the initial home visit. Staff should familiarise themselves with this. It is reviewed annually (or earlier if issues arise).

Incidents

If an incident does occur, the member of staff involved should ensure their own safety first, before reporting to the Head Teacher. If necessary the police should be called. A meeting will be convened to review the incident and decisions made about future arrangements following the incident. A copy of two versions of the incident and accident reporting forms are attached to this policy (**appendix 1**). This is so that school staff have a copy of the relevant forms in case they need to report an incident to the Head Teacher.

Policy updated: November 2018 Policy lead: JNeveu Governor..... Date Review schedule: annual review (taking in to account any accidents and incidents) Review date: November 2021

APPENDIX 1

Simplified Accident Report Form

For use in a) recording main information prior to input to SHE Enterprise or b) for recording minor accidents and retaining a copy locally. More complex accidents requiring a detailed investigation should be recorded on the full version published on the SHE webpages (see SHE/Pro/4 Accident Reporting and Investigation) or directly onto SHE Enterprise. For assistance, contact SHE 01452 425350 <u>she@gloucestershire.gov.uk</u>

Accident, Incident and Near Miss Reporting and Investigation Form (for more serious accidents/investigations) Ensure that the current form is used – see SHE webpages www.gloucestershire.gov.uk/she

Accident, Incident and Near Miss Reporting and Investigation Form (March 2014 version)

To be completed as fully as possible by the person responsible for the location of the accident and submitted to your service area SHE Enterprise input point - see section 8 of the form below.

SHE/Pro/4 Accident Reporting and Investigation provides guidance on completing this form and is available via the link to SHE webpages above (requires Schoolsnet login).

Shaded box = mandatory information

1. <u>Basic Information (needed to gather main details)</u>

Tick the relevant b	ох		
Personal accident	Incident	Near miss	
Assault – physical	Assault – verbal	Occupational ill health	

Injured Person's Service Area (please specify)	Organisation Tick the relevant box	Service Area (i.e. service area that is	
	GCC	responsible for location of accident)	
	Partnership	Site address	
	Contractor	of accident	
	Member of the public	(school, office, care home etc)	

Date of accident dd/mm/201x	Time of accident (24hr clock)	Precise place where occurred (e.g. stairs, workshop etc)

Details of circumstances and the actual accident (including assault), incident, near miss or occupational ill health. (Continue on additional sheet if necessary.)

Accident reported by...

State if injured person or give details if someone else	

2. Details of Event and Injured Person

Type of incident (*Tick the relevant box*)

1-3 shifts/turns of duty – lost time	No lost time (other than rest of same day/turn of duty)	
No lost time (whole of shifts/turns of duty)	Over 3 days/turns of duty – lost time	
Fatality	Environmental incident (pollution etc)	
Dangerous Occurrence (explosion, building collapse, major fire etc)		

Is the accident reportable to the HSE? (Yes/No) (See SHE/Pro/4 Accident Reporting and Investigation)

Injured person

Was anyone injured/involved?	Yes (belov	completed b v)	oxes N	o (put x in box)

I

Condition of site - complete if relevant to accident

Weather	Temperature	
Visibility	Lighting	
Noise	Surface	

The following four sections (a-d) may assist you in investigating the causes(s) of more significant/complex accidents

a) Work equipment - complete if relevant to accident to assist investigation

Item being used	Question	Yes	No	N/A
	Mag it fit for took?			
	Was it fit for task?			
	Was it GCC property?			
	Was it on hire?			
	Was it injured person's personal property?			

b) Personal protective equipment - complete if relevant to accident to assist investigation

Type provided	Question	Yes	No	N/A
	Was it being used for task?	ſ		
	Was it fit for the task?			
	Was person trained in its use?			
	Was it in good working			
	order/condition?			

c) Hazardous substances - complete if relevant to accident to assist investigation

Substance being used	Question		No	N/A
	Was a CoSHH assessment available?		-	
	Were control measures in use?			
	Were control measures suitable?			
	Was person trained in control measures?			

d) Safe systems of work - complete if relevant to accident to assist investigation

Question	Yes	No	N/A
Was a safe system of work prepared/documented for this activity?			<u> </u>
Was it being used correctly?			
Was it fit for task?			
Was injured person trained in safe system of work?			

4. Cause(s) of accident. Tick all those that you consider apply and add any others

Please provide brief details of any causes identified above:

Was a risk assessment conducted for the activity being done when accident occurred? (Yes/No/N/A)		
If 'yes' has the risk assessment been reviewed and amended?		
Had training been provided for the task being done (if appropriate)? (Yes/No/N/A)		

5. Recommendations to prevent recurrence, responsible person and target date for completion. (State if 'nil'.)

6. Are there any documents that should be retained with this accident record? (Method Statements, photographs, inspection reports, sketches, witness statements, risk assessments etc? (State if 'nil'.)

7. Signatures

Name/post of person completing form		
Signature of person completing form	Date	

Name/post of line manager		
Signature of local/line manager	Date	

8. Next steps

The accident form must now be sent to your *SHE Enterprise* input point unless local input is possible (e.g. schools). If necessary, send an immediate copy with key information and subsequently, when all relevant details have been gathered, send a complete copy. Where appropriate, the accident must be investigated and remedial action implemented to prevent a recurrence.

NB – these input points will change as the reorganisation progresses and the current position is shown on the SHE webpages.

Input points are:

- Adult Services: Send accident forms by e-mail only to Adult Services Premises Supplies - premisessupplieshs@gloucestershire.gov.uk
- County Records Office: Hollie Bradley Libraries HQ
- Libraries: Send to Local Area Office
- 'Environment' type business services: Carol Hamlin Office Services
- All other cases (not schools) send to SHE: <u>she@gloucestershire.gov.uk</u> SHE, Oxleaze Wing, Shire Hall, Westgate Street, Gloucester GL1 2TP
