

# SCHOOL CHALLENGE

As a school community how far can you walk, run or cycle?

18th Jan - 10th Feb 2021

As a family record the distance you walk, run or cycle each day, at the end of each week send into your child's school the total distance your family has covered. This will be added to all of the families at the school to give a school total!

School totals will be added together to see as a community how far you can travel!

Whilst you are out being active, please take in your surroundings and take photos of nature - this could be a landscape, an animal or a plant - we would love to see them! Please tag us using our social media channels shown below.
