

I will never jump into a black hole.

I will always say that I'm not hungry, then say I'm hungry five minutes later.

I will never wrestle a crocodile without my lunch to feed it.

I will always respect others opinions, even if I don't agree.

I will never try eat the moon because I was bored.

I will always fall asleep at the best part of a movie.

I will never explode the moon with a deathstar.

I will always walk into a room and forget why im in there.

By Flynn.
